Under Internal Revenue Service (IRS) Rules, some health care services and products are only eligible for reimbursement from your Health Care Flexible Spending Account (HCFSAs) when your doctor or other licensed health care provider certifies that they are medically necessary. Your provider must *specifically* state your (or your spouse's or dependent's) diagnosis, specify how the product and/or service is intended to alleviate symptoms or improve treatment needed, the length of treatment, and how this treatment will alleviate your medical condition.

This form is to assist you and your health care provider in providing the information we need to process your claim. Your provider can also submit a statement on his or her letterhead so long as the letter includes **all** information on this form.

By submitting this LMN, you AND your licensed practitioner certify that the expense you are claiming is a direct result of the medical condition described below, and you would not incur the expense you are claiming if you were not treating this medical condition.

You only need to submit this submission form, or your provider's letter containing the same information, with the first claim you submit for the service or product. If the treatment extends beyond the time listed, you must submit a form or physician letter covering the new time. You must submit a new LMN each plan year- they cannot be approved indefinitely. Submitting this form does not guarantee that the expense will be reimbursed.
